PROFILE

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities offering 1+ years of related experience.

SKILLS

Best Practices and Methodologies • Concept Development • Mission Critical Applications

Database Design & Development

Web Applications & Frontend Technology Express Js & Sequelize JS & Restful API

Graphic and User Interface Design • Integration Testing • Software Application Testing

PROFESSIONAL EXPERIENCE

January 2023 – present
Dschang, Cameroon

Africa Systems, Junior Web Developer
- Reviewed code, debugged problems, and corrected issues.
- Worked with back-end developers to design APIs.
- Developed functional databases, applications and servers to support websites on back-end.
- Analyzed existing software implementations to identify areas requiring improvement.
- Provided software application engineering and maintenance for development lifecycle.
- Developed unit test cases for testing and automation.
- Developed user-friendly web forms with validation and error handling.
- Performed unit testing of web applications and troubleshot issues.
- Used NodeJS, ORM and SQL/No-SQL to develop and manage databases.
- Developed user-oriented visuals and features using front-end languages to increase site traffic.

LANGUAGES

French (Native)   **English** (Native)   **German** (C1)
